MassWildlife Climate Change Resilience Grant Program Application Checklist

This document is to help you gather information and documents you may need prior to applying for the FY22 MassWildlife Climate Change Resilience Grant Program

- If you are not the owner of the parcel(s) where the proposed management activity is taking place, have a signed letter from the property owner approving the proposed management activities.
- If there is a Conservation Restriction (CR) on the property have a signed letter from the CR holder approving the proposed management activities.
- Subcontractor quote(s) – If subcontractors are being used.
- Completed budget worksheet for staff, subcontractors, and/or NRCS rate work.
- Map(s)
- Project Site Photo(s)
- Shapefiles (if possible) saved in a .zip folder.
- Have a strong and stable internet connection before beginning the application process. The uploading of files may take some time.
- If you are hitting the final submission form and nothing appears to be happening it is most likely because a section that is required or a required upload has not been completed.
- You do not have to complete the application in one sitting. Be sure to click *Save and Resume Later* before leaving the page. If you work on the application in segments and save and return to the application, you may have to re-upload attachments. Please do not worry. If attachments appear to be missing we will reach out to you.

Forms and NRCS Rates can be found [here](#).

Some Climate Change Resilience and Adaptation resources, including the MassWildlife Climate Action Tool, can be found [here](#).
